of Troy, Albany, and of the North and Western New-York, will be provided the coming winter with railroad and steamboat conveyances to the city of New-York, with the exception of about twenty miles of staging There will be two routes; one from Albany to West Stockbridge, thence by stage 25 miles to Cannan, thence by the Housa-tonic railroad to Bridgeport, and thence by steamboat to New-York. Distance, 180 miles. The other from Albany to Springfield, Mass, thence by stage 23 miles to Hartford, thence by railroad to New-Haven, and thence by steamboat to New-York. Distance about 240 miles.

Farewell forever, therefore, to the stage route over the Highlands; and to its attendant bad roads. bad taverns, and snail-like progress. The mail, however, will probably still continue ta be brought by the old route, and we shall, therefore, be obliged to derive our Congressional news, at least for this winter, from the Boston papers. When will the city of New-York wake up in regard to the nenes sity of constructing a railroad to Troy and Albany [Troy Whig.

Spring.-We are informed by our friend Capt. Brooks that an arrangement has been concluded upon for the coming Spring, by which one boat will run direct to and from Bridgeport to NewYork daily, touching only at Wilson's dock, and that the other boat will be employed between Norwalk and New-York, touching at the intermediate places, with the exception of Wilson's.

The object of this arrangement is to induce travel from the North via Bridgeport to New-York, which might otherwise pass down the Hudson.-The price will be the same both ways. [Norwalk Gazette.

Fire in Concordia.—On Wednesday night last the stears cotton gin of Samuel Davis, Esq., near Vida in, was destroyed by fire, together with some eighty or ninety bales of cotton. Estimated loss \$12,000. The fire is supposed to have been the work of a white incendiary. Mr. Tucker, the overseer on the place, was robbed of his trunk and gun while the gin was burning. [N. O. FIRE IN LOCKPORT .- We learn by Col. Charles and passengers from the west, that the Lockport e termination of the railroad, Lower Town, was destroyed by fire, about 10 o'clock on Sunday morning, the 21st inst. A good part of the furniture, which is nearly new, was saved. The house was kept by T. W. Hascell. The fire originated from some defect in one of the chimneys.

DIANO FORTE FOR SALE.—A splendi instrument, patent action, superior tone, made in Bos ton by a celebrated maker, and has not been 6 months in use. Will be sold at a great bargain for cash, at 311 Fast Broadway. From Galignani's Messenger, (French paper,) Noc 1838.
Saunder's Metalic Strep. This article has been extensively used throughout England, America, and no lessenger. It imparts to a razor a keen and smooth edge, far quicker, and with more certainty, than any other article we know of

hesitate to pronounce the most complete thing of the kind we have ever met with.

From Bell's Weekly Messenger.

Saunders's Patent Metalic Tablet and Kazor Strop is one of the best things of the kind that we have seen. This excellent Tablet commines the properties of both home and strop, requires no oil or other find, and is is its use extremely simple. It is most particularly recommended to gentlemen who experience the incarve neces of a teader lace and strong heard, as a razor occasionally applied to the Tablet will receive and retain so perfect an edge as to cender the operation of shaving as easy and agreeable as it was before unpleasant and conful.

I have several certificates of the great was and value of the Tablet Strop from scientific gentlemen, but that it may be more satisfaciory to the public. I deem it right to insert the following from Dr. Griscom, Dr. Valentine Mott, and General James Tallmadge.

George Saunders's Improved Strop, we can freely testify to its value. The side which he calls the Metalic Tablet is, as far as we know, a thing of kits own introduction in this country; it appears to be an excellent, convenient substitute for a hone, and operating on the same principle as steel does upon a table kinfe, but with far greater smoothness and certainty; it saves the unpleasant necessity of oil and water, to assist in whetting. The other three sides of the strop are extremely well finished, flat, smooth, and almost elastic, preserving the razor from that roundness of edge which so soon destroys its keenness.

J. GRISCOM.

May 16, 1827.

VALENTINE MOTT.

Saunders's Razor Strop, with its four sides, combines admirably all the requisites to slarpen and set razors with a fine and smooth edge—it is a real confert to possess it.
